

We're Switching to Electronic Prescriptions (EPS) From Wednesday 13th May

We're pleased to let you know that our surgery is moving to the **Electronic Prescription Service (EPS)**. This is a positive change that will make getting your prescriptions quicker and more convenient.

What is EPS?

EPS allows your prescription to be sent **securely and electronically** from the surgery directly to your chosen pharmacy.

Benefits for patients

No need to collect paper prescriptions
Faster processing at your pharmacy
Fewer delays and lost prescriptions
More convenient and efficient service

How you can help -

To support a **smooth transition**, please speak to your local pharmacy and **register (nominate) them as your chosen pharmacy as soon as possible.**

This will help ensure everything runs smoothly when we go live.

Thank you for your support as we make this improvement to our service.
